TYROTECHNOLOGIES

Company Overview

Enterprise IT, ELV & Smart Automation Solutions

Established with over 20+ years of expertise in the UAE technology landscape, Tyro Technologies provides comprehensive, end-to-end IT, security, and smart automation solutions. From state-of-the-art office setups to large-scale building integrations, we deliver tailored infrastructure, structured cabling, and smart controls designed to empower modern businesses.

TYROTECHNOLOGIES

Products & Services

At Tyro Technologies, we provide end-to-end IT, security, and smart automation solutions engineered to optimize business operations and modernize commercial spaces. Backed by over two decades of technical expertise in the UAE, we deliver scalable infrastructure, seamless systems integration, and ongoing support tailored to your enterprise needs.

01

IT & Network Infrastructure

Complete end-to-end technology solutions, including cloud integration, server setup, enterprise networking, and annual maintenance contract (AMC) support.

02

ELV & Security Systems

Advanced CCTV IP surveillance, access control, gate barriers, and integrated building security management designed to safeguard your assets.

03

Smart Automation & BMS

Centralized controls for lighting, HVAC, guest room management (GRMS), and smart building automation designed for energy efficiency and comfort.

04

Audio-Visual & Telecom

Professional AV systems, meeting room setups, video walls, background music/PABX, and enterprise telephony solutions.

TYROTECHNOLOGIES

Market & Industry

Target Market & Key Sectors

At Tyro Technologies, we serve a diverse portfolio of sectors across the UAE, providing specialized IT, ELV, and smart automation solutions. From corporate enterprises and high-end residential villas to hospitality and industrial facilities, our end-to-end integration ensures optimal performance, energy efficiency, and security tailored to each industry's demands.
